CONTENT

The examinations of the CSET are criterion referenced. A criterion-referenced test is designed to measure an examinee’s knowledge and skills in relation to an established standard rather than in relation to the performance of other examinees.

Each test in the program is designed to measure a specific set of knowledge, skills, and/or abilities reflecting the subject area taught. The sets of subject matter requirements for all examinations of the CSET were defined in conjunction with committees of California educators and approved by the CTC.

Test materials matched to these subject matter requirements were developed using, in part, textbooks, California curriculum frameworks, California K-12 Student Academic Content Standards, Common Core State Standards as adopted by California, teacher education curricula, and CTC preparation program standards. The materials were developed through consultation with and approved by committees of California educators, teacher educators, and other content and assessment specialists.

TEST DATES

Dates vary according to subject test. Scroll to the bottom of this webpage, choose your subject and click through each step to find dates. There are multiple test centers and multiple days per month.

FEES

Fees vary per test, but range from about \$75 - \$100 per subtest, can have up to 4 subtests.
